

Covering the total area of 780 sq.m. on the 3rd floor of Mercury Tower, Ploenchit Rd., Bangkok, this club provides full services in health & beauty exclusively for their lady members.

The project involved an extensive renovation & decoration starting from the lobby located underneath the problematic building's atrium, nurse & technician offices, 18 different styles face & body massage rooms, ozone lounge, locker area equipped with steam room & sauna and lastly, back office area.

Color scheme and material choice were based on natural & feminine basis. The relax lighting display also plays an important role to create a warm & relaxing refuge from today's chaotic urban life.
